Emerging Career Opportunities in Advanced Air Mobility

Ohio continues to lead the nation in the advancement of aerospace technology and infrastructure via creation of an Advanced Air Mobility (AAM) division through DriveOhio, the state's smart mobility hub. In this program, learn about Advanced Air Mobility (AAM), a newly emerging mode of air transportation to move both people and cargo, which requires new aircraft designs, flight technologies, and supporting infrastructure.

**Panelists: Bob Tanner, Advanced Air Mobility Director, ODOT
and
Rich Granger, Managing Director of Workforce Development, DriveOhio**

No cost, but registration is required.

Contact Hours: 1.5

Robert "Bob" Tanner is the Advanced Air Mobility (AAM) Director for the Ohio Department of Transportation (ODOT), where he spearheads the implementation of the state's AAM strategy, guides policy, oversees infrastructure investment, and continues support of advanced aircraft operations.

Rich Granger is Managing Director of Workforce Development at DriveOhio, the state's one-stop shop for connected and autonomous mobility solutions on the ground and in the air. He partners across industry, education, government and communities to prepare Ohio's workforce pipeline—preK to Ph.D.—for the future of smart mobility.
